- c. Res. No. 11-0228-3 - Resolution Awarding Bid for Rebuild of Belt Filter Press No. 3

Upon motion of Mr. Lifrieri, second of Mr. Machala, the above resolution was approved, following a brief discussion, by the following roll call vote. Mr. Machala questioned the differential between a brand new replacement and a rebuilt model. Mr. Petruski responded that previously the quote given to the Authority was not in compliance with the specifications. Mr. Machala stated that it seems that more stainless is used in the rebuild process. Mr. Petruski responded that it is not necessarily that more stainless is used, it is just the rebuild cost has increased. Mr. McCray reported that it is the way the specs are developed; more galvanized steel or more stainless and went on to add that the increased cost is due to the rebuild process. Roll call was as follows:

Arthur Quade	Yes	Peter Van Riper	Yes
Alessandro Fischetti, Jr.	Yes	Robert McCray	Yes
Edward J. Machala	Yes	Joseph J. Lifrieri	Yes
Philip Petrone	Yes	William A. Poch, Sr.	Absent

Alvin Florey	Absent	Kenneth Lee	Yes
Herbert Vollers	Absent	Roger Guttschall	Yes

A copy of the resolution is attached hereto and made part of the Official Minutes.

#### Minute 9 - Board Committees

- a. Chairperson

Chairman Guttschall stated that there were no Board Committee Reports.

#### Minute 10 - Reports

- a. **Executive Director's Report**

- (1) Outfall Relocation Project - Tunnel Project

Mr. Anastasio reported that the tunnel has been completed and that the railroad is satisfied with the work.

Remsco has tied in the northern section of the tunnel and has installed a closure piece. On the South side, Remsco has laid a piece of pipe and they have a few more items to do. Currently, the hydrostatic testing should be performed on the South side.

For the Board's information, Chairman Guttschall asked the length of the pipe. Mr. Anastasio responded that it is close to 2,000 feet in length. To date there has been a leakage of approximately 3 gallons/min.

Facility Engineer Anastasio went on to report that basically Remsco is out of work. Mr. Anastasio reported that at this time a determination needs to be made as to where the leaks are coming from; the pipes or the chambers. He went on to state that it is not possible to visibly determine where the leak is.

Mr. Anastasio stated that a chamber inspection was performed. A discussion ensued. Facility Engineer Anastasio reported that some pre-emptive coating be made and some injection grouting. Again, a discussion ensued.

Mr. Petrauski stated that all of the pipe joints have been air-tested and sealed and it is felt that the leaks are not in the pipe joints, however, if it is, it is going to be difficult to find them. Currently, it is believed that the leaks are in the chamber. A brief discussion ensued.

Commissioner Lifrieri questioned whether it would be beneficial to test the section of pipe to determine whether it is leaking; particularly around the chamber. Mr. Anastasio reported that two (2) plugs are necessary to perform the test in the pipe. He went on to report that one (1) plug will not hold for the 10 psi required for the test. There is no way to install the plugs in the chamber and that there is no easy way to perform the test. A brief discussion ensued.

Chairman Guttschall asked about the five (5) pipes and how are they terminated in the chambers.

Mr. Petrauski reported that Remsco is almost finished and that there is no easy way to do the testing and that the easiest way is to fix the chambers. Mr. Petrauski stated that the Authority is currently operating under our original permit. Again, a brief discussion ensued.

Ms. Quabeck stated that Remsco has done a great job for the Authority and the Authority does not want to get into additional litigation.

Mr. Lifrieri asked whether the pressure in the tunnel had been checked. Mr. Anastasio reported that this issue has been explored.

(2) Update on repairs to Incinerator No.2

Plant Superintendent Thompson reported that pre-heating was started which went very well and that certain milestones were necessary on temperature for at least a minimum of 14 hours. He went on to report that half of the load of sand has been added and the temperature was up to 1200°. He felt that things should be operational by the beginning of the following week. He went on to state that both the contractor and the Authority maintenance personnel did a great job.

- (a) Res. No. 11-0228- - Resolution Authorizing  
Change Order No. 1- Contract No. B-10-1  
Reactor No. 2- Dome Replacement Project  
(Miscellaneous Reactor Repairs)

Mr. Anastasio reported that this Change Order is necessary for a number of small repairs that needed to be done that were uncovered once the work started.

Upon motion of Ms. Quabeck, second of Mr. Van Riper, the above resolution was approved by the following roll call vote:

Arthur Quade	Yes	Peter Van Riper	Yes
Alessandro Fischetti, Jr.	Yes	Robert McCray	Yes
Edward J. Machala	Yes	Joseph J. Lifrieri	Yes
Philip Petrone	Yes	William A. Poch Sr.	Absent
Peter F. Stires	Absent	Gail Quabeck	Yes
Alvin Florey	Absent	Kenneth Lee	Yes
Herbert Vollers	Absent	Roger Guttschall	Yes

A copy of the resolution is attached hereto and made part of the Official Minutes.

- (3) Update on design of Rehabilitation of Inc. No. 1  
and the replacement of the SCADA System on Inc.  
No. 2

Mr. Petruski reported that initially it was hoped to have this done and be able to go to funding this year. Unfortunately, we are not far enough along in the design. We are going to pursue funding next year and complete the design work this year.

(4) Report on Natural Gas Supplier

Mr. Petruski reported that a letter was in the Board Book from the CFO regarding the purchase of natural gas as part of the county aggregation.

Mr. Petruski went on to report that the contract ran out, but the supplier continued to charge the Authority the price on the prior contract. However, Mr. Wozniak followed the charges and complained that the Authority was being overcharged and, as a result, the Authority received a check for \$7,500.

Mr. Petruski stated that the next four (4) items were reserved for Closed Session.

- (5) Update on status of pH at R4 of Raritan River -  
**(CLOSED SESSION) NEGOTIATIONS**
  - (6) Review and possible formal action on revised settlement with Pfizer/Wyeth regarding carbon units **(CLOSED SESSION) NEGOTIATIONS**
    - (a) Res. No. 11-0228- - Resolution Authorizing Settlement Wyeth-Carbon Towers/USTs
  - (7) Update on status of litigation with Carbro Constructors Corp. **(CLOSED SESSION) LITIGATION**
