

**RESOLUTION AWARDING THE CONTRACT FOR
WASTEWATER FLOW METERING SYSTEM
MAINTENANCE, CALIBRATION & REPAIR SERVICES
CONTRACT NO. B-24-2**

WHEREAS, The Somerset Raritan Valley Sewerage Authority has previously determined that it is in the Authority's best interest to outsource the maintenance, calibration and repair of the interceptor system flow meters and the treatment plant meter; and

WHEREAS, the Local Public Contract Law, N.J.S.A.: 40:11-1 et. seq., requires that all public purchasing in excess of \$44,000 must be publicly advertised and bids awarded; and

WHEREAS, on Thursday, September 14, 2023, the Somerset Raritan Valley Sewerage Authority (the "Authority") received and publicly opened bids for Wastewater Flow Metering System Maintenance, Calibration and Repair Services for a one-year time period with an option to extend the contract for one additional one (1) year period; and

WHEREAS, one (1) bid was received as described in the attached memo, and a review of that bids by the Authority's staff has determined the bidding documents are in order, and the Authority staff recommends that the low bidder, Allied Control Systems, Inc., be awarded the contract for Wastewater Flow Metering System Maintenance, Calibration and Repair Services for a total bid price of \$182,474.40; and

WHEREAS, the Chief Financial Officer of the Somerset Raritan Valley Sewerage Authority has certified in writing the availability of funds for the purposes set forth in this Resolution, and the cost is provided for in the duly adopted budget of The Somerset Raritan Valley Sewerage Authority, Operating Budget line-item Wastewater Flow Meter Calibration & Maintenance - Allied Control Services (01-600-6612) for \$182,474.40.

NOW, THEREFORE, BE IT RESOLVED by The Somerset Raritan Valley Sewerage Authority that it hereby awards the contract to Allied Control Services, Inc. for Wastewater Flow Metering System Maintenance, Calibration and Repair Services for a one year time period from January 1, 2024 to December 31, 2024 with an option to extend the contract for one additional one (1) year time period for a total bid price of \$182,474.40 with funding for this project being provided in the Authority's FY 2024 Budget; and

BE IT FURTHER RESOLVED that The Somerset Raritan Valley Sewerage Authority hereby waive any and all non-material defects as found within the bid documents and the Authority's Board of Commissioners hereby direct, empower and authorize the Executive Director to enter into the necessary contracts with Allied Control Services, Inc. for the Wastewater Flow Metering System Maintenance, Calibration and Repair Services.

DATE: SEPTEMBER 21, 2023

RE: WASTEWATER FLOW METERING SYSTEM MAINTENANCE,
CALIBRATION AND REPAIR SERVICES - CONTRACT NO. B-24-2

On September 24, 2023 at 2:30 pm, bids were received and publicly opened for the above referenced project. The project was publicly advertised in accordance with the New Jersey Local Public Contracts Law (LPCL), N.J.S.A. 40:11-1 et seq., and the Authority's normal procedures. The bid results were as follows:

Allied Control Services, Inc.	\$182,474.40
-------------------------------	--------------

Allied Control Services was previously awarded this Contract in 2022 and the Contract was extended through 2023 at a price of \$177,379.05.

I have reviewed the bid received and find the math to be correct. I have verified that they hold valid Public Works Contractor Registration and Business Registration Certificates. It is our experience that they have performed the required duties in an acceptable manner.

Therefore, I recommend that the Authority award this contract to Allied Control Services in the amount of \$182,474.40 for a period of one (1) year with an option to extend for an additional year, in accordance with the Local Public Contract Law.

Should commissioners have any questions, please do not hesitate to contact me.

Ronald S. Anastasio, P.E.
Executive Director

**RESOLUTION AWARDING THE CONTRACT FOR THE REMOVAL OF
INCINERATOR ASH FROM SETTLING BASINS AND LOADING INTO
CONTAINERS AND ASH, GRIT, SCREENINGS AND GARBAGE HAULING FEES**

WHEREAS, The Somerset Raritan Valley Sewerage Authority has a need for the removal of incinerator ash from settling basins, the loading of containers and the hauling of ash, grit, screenings, and garbage; and,

WHEREAS, the Local Public Contracts Law N.J.S.A.: 40:11-1 et. seq. requires that all public purchasing in excess of \$44,000.00 must be publicly advertised and bids awarded; and

WHEREAS, on August 17, 2023 bids were received and publicly opened by the Authority, and a total of two (2) bids were received. Upon a review of the bids by the Authority's supervisory staff, it was determined that, based upon that review, the bid should be awarded to Gary W. Gray Trucking for a total bid price of \$219,210.00 for the Removal Of Incinerator Ash From Settling Basins And Loading Into Containers And Ash, Grit And Screenings And Garbage Hauling Fees beginning on January 1, 2024 for a one-year time period with (1) consecutive one-year option, exercisable in the sole discretion of the Authority with funding for this work being provided from the Authority's FY 2024 Operating Budget.

WHEREAS, the Chief Financial Officer of The Somerset Raritan Valley Sewerage Authority has certified in writing the availability of funds for the purposes set forth in this Resolution, and the expected usage quantity and cost is provided for in the duly adopted budget of The Somerset Raritan Valley Sewerage Authority, operating budget line items: Disposal Cost – Trash (01-200-6267), Disposal Cost – Grit & Screenings (01-300-6318) and Disposal Cost – Ash Disposal (01-300-6324);

NOW, THEREFORE, BE IT RESOLVED by The Somerset Raritan Valley Sewerage Authority that it hereby awards the contract for the Removal of Incinerator Ash from Settling Basins And Loading Containers and Ash, Grit, Screenings and Garbage Hauling Fees for a one (1) year time period from January 1, 2024 to December 31, 2024 with (1) consecutive one-year option, to Gary W. Gray Trucking for a total bid price of \$219,210.00; and

BE IT FURTHER RESOLVED that The Somerset Raritan Valley Sewerage Authority reserves the right to waive any and all non-material defects as found within the bid documents and the Authority's Board of Commissioners hereby waive all non-material defects and authorize, direct and empower the Executive Director to enter into and execute the necessary contracts for the above stated work.

DATE : SEPTEMBER 7, 2023
RE: BIDS FOR REMOVAL OF INCINERATOR ASH FROM SETTLING BASINS AND
LOADING INTO CONTAINERS AND ASH, GRIT, SCREENINGS AND GARBAGE
HAULING FEES

This project was publicly advertised, in accordance with the New Jersey Local Public Contract Law and the Authority's normal procedures, on July 27, 2023. Three (3) sets of project specifications were purchased.

Two bids were received for the above referenced service on August 17, 2023:

	<u>TOTAL BID PRICE</u>
Gary W. Gray Trucking	\$219,210.00
SpectraServ	\$312,150.00

Gary W. Gray Trucking

1. Price for incinerator ash removal from settling basins, estimated cleanings/year –
Min. 0 / Max. 3
3 x \$12,500.00/basin = \$37,500.00
2. Price for loading containers, estimated loads/year = Min. 0 / Max. 200
200 x \$ 137.50/container = \$27,500.00
3. Garbage hauling fee/load, estimated 33 loads/year
33 x \$245.00/load = \$8,085.00
4. Tipping Fee – per ton (for informational purposes only) = \$125
5. Grit and Screenings (to Waste Management Disposal Site), estimated 50 loads/year
50 x \$742.50/load = \$37,125.00
6. Ash hauling costs (to Warren County Landfill), estimated 200 loads/year
200 x \$545.00/load = \$109,000

Total Bid Cost = \$219,210.00 (tipping costs not included)

SpectraServ

1. Price for incinerator ash removal from settling basins, estimated cleanings/year -
Min. 0 / Max. 3
 $3 \times \$18,000.00/\text{basin} = \$54,000.00$
 2. Price for loading containers, estimated loads/year = Min. 0 / Max. 200
 $200 \times \$200.00/\text{container} = \$40,000$
 3. Garbage hauling fee/load, estimated 33 loads/year
 $33 \times \$550.00/\text{load} = \$18,150.00$
 4. Tipping Fee - per ton (for informational purposes only) = \$135.00
 5. Grit and Screenings (to Waste Management Disposal Site), estimated 50 loads/year
 $50 \times \$900.00/\text{load} = \$45,000.00$
 6. Ash hauling costs (to Warren County Landfill), estimated 200 loads/year
 $200 \times \$775.00/\text{load} = \$155,000$
- Total Bid Cost = \$312,150.00 (tipping costs not included)**

Our current contractor is Gary W. Gray Trucking at \$215,019.87 for 2023. This contract was awarded in 2022 and extended through 2023. I have reviewed the bid received and find the math to be correct. I have verified that they hold valid Public Works Contractor and Business Registration Certificates. It is our experience that they have performed the required duties in an acceptable manner.

Based upon the preceding tabulations I would recommend the bid be awarded to Gary W. Gray Trucking with a bid price of \$219,210.00 for a period of one (1) year with an option to extend for an additional year, in accordance with the Local Public Contract Law.

RE: FURNISHING & DELIVERING SODIUM CHLORITE-BASED ODOR
CONTROL CHEMICAL AND DOSING SYSTEM
ONE YEAR EXTENSION OF CONTRACT

In accordance with the Local Public Contract Law, N.J.S.A. 40:11-1 et. seq., under Res. No. 22-0926-2, the Authority awarded Evoqua Water Technologies LLC a contract commencing on January 1, 2023, for the furnishing and delivery of Sodium Chlorite-Based Odor Control Chemical and Dosing system, in the amount of \$239,100.00, for a term of one (1) year, with an option to extend the contract for an additional one-year period.

I received an email from Evoqua Water Technologies LLC requesting a one-year extension of the contract, in accordance with the Local Public Contract Law. It is my understanding that Evoqua Water Technologies LLC provides the service of furnishing and delivery of Sodium Chlorite-Based Odor Control Chemical in an acceptable manner.

It is my recommendation that the Authority approve the extension of this contract to Evoqua Water Technologies LLC for a period of one year, in the amount of \$242,925.60, which represents a 1.6% increase (\$3,825.60) over last year's contract amount in accordance with the most recent New Jersey contract index rate.

**RE: FURNISHING AND DELIVERY OF CHEMICAL SUPPLIES
EXTENSION OF CONTRACT NO. A-23-1**

Dear Ellie:

Evoqua Water Technologies values your business and we look forward to serving you in the years to come. In response to your recent letter dated August 14, 2023, we are pleased to extend the above-referenced contract for another year, effective January 1, 2024, through December, 2024. Delivered pricing will include the price increase of 1.6%.

Textone XL®: \$ 16.20 /gallon

All terms are per the existing contract. This price does not include any applicable taxes.

Thanks again for your business. We look forward to working with you in the years to come. If you have any questions or comments, or if I can be of service to you in anyway, please contact me at (267) 347-2579 or via email at richard.germain@evoqua.com.

Sincerely,

BLOCK 116.01 LOT 25, 26.01, 27, 27.01 AND BLOCK 112 LOT 3**

WHEREAS, an application has been received from Raritan Borough for construction of a sewer collection system and a sewer connection to the appropriate Raritan Borough line or lines to allow the discharge of sewage to be received and treated at and by the facilities of The Somerset Raritan Valley Sewerage Authority, and

WHEREAS, such sewer connection has been calculated to discharge a facility flow of 14,550 gallons per day from a proposed 75-unit four-story residential building located at near the intersection of near the intersection of Route 206 and Somerset Street and includes the construction of 146 linear feet of 8-inch PVC gravity sewer, as shown on plans (twelve sheets) entitled:

Final Site Plan, Raritan Crossing, Block 116.01 Lot 25, 26.01, 27, 27.01 And Block 112 Lot 3, Borough of Raritan, Somerset County, New Jersey prepared by David A. Stires, LLC, dated August 23, 2023; and

WHEREAS, said application has been reviewed for conformance with the applicable wastewater management plans and documents and available permitted design treatment capacity, only, and is recommended for approval by, Sherwin Ulep, P.E., the Authority Engineer;

BE IT RESOLVED BY THE SOMERSET RARITAN VALLEY SEWERAGE AUTHORITY that it hereby consents to the construction of the above stated collection and conveyance systems, such consent being in accordance with the provisions of R.S.40:14A-29; and

BE IT FURTHER RESOLVED that The Somerset Raritan Valley Sewerage Authority does hereby approve the Application of Raritan Borough to connect to the Raritan Borough collection system and to deliver sewage to the facilities of The Somerset Raritan Valley Sewerage Authority, subject to further approval of the New Jersey Department of Environmental Protection; and

BE IT FURTHER RESOLVED this approval is not, nor shall it be construed to be, an allocation or guarantee of future capacity, and, further, that the connection fee or fees in effect at the time such connection is to be made shall be paid to the Authority in accordance with the Authority's regulations pertaining thereto and the terms of a Connection Fee Agreement entered into by and between the Applicant and the Authority on or before the date of adoption of this Resolution; and

BE IT FURTHER RESOLVED this consent and approval will terminate if Applicant fails to complete construction of said collection facilities and to make connection thereof and commence delivery of sewage to the facilities of The Somerset Raritan Valley Sewerage Authority within two (2) years of the date hereof; and the Department of Environmental Protection is hereby notified that all time extension requests of this consent and approval must be approved by the Authority.

BE IT FURTHER RESOLVED that the Executive Director of the Authority is hereby directed to forward a copy of this Resolution to the Department of Environmental Protection and Raritan Borough and the said Borough is hereby directed to immediately notify the Authority when it receives notice and a request for the herein above project to be connected to the municipal sewer system.

RE: Sanitary Sewer Extension Application
Raritan Borough
Raritan Crossing
Block 116.01 Lot 25, 26.01, 27, 27.01 and Block 112 Lot 3

This application is for the approval of a sewer extension for a development that includes the demolition of an existing commercial building and the construction of a 75-unit residential building. The project is located near the intersection of Route 206 and Somerset Street and includes the construction of 146 linear feet of 8-inch PVC gravity sewer. The proposed four-story building will generate an average total flow of 14,550 gallons per day (gpd) as calculated below:

- 34 1-Bedroom Units (150 gpd/unit) – 5,100 gpd
- 38 2-Bedroom Units (225 gpd/unit) – 8,500 gpd
- 3 3-Bedroom Units (300 gpd/unit) – 900 gpd

This application is in compliance with applicable wastewater management plans and documents and there is currently sufficient treatment capacity for the proposed contributory flow.

The developer/applicant has signed an Agreement with the Authority whereby the developer/applicant agrees to pay the Connection Fee to the Authority prior to applying for the necessary construction/ plumbing permits. This application is hereby recommended for approval.

RE: Sanitary Sewer Extension Application
Branchburg Village
Proposed Combined 475-Unit Market Rate and Affordable Housing Development
Block 70 Lots 18, 18.01, 24 and 24.01
Township of Branchburg

This application is for the approval of a sewer extension from a proposed residential development which consists of 125 affordable housing units, 350 market rate units and a pump station. Located near the intersection of Route 202 south and Holland Brook Road West in the Township of Branchburg, the project will have eight (8) apartment buildings and 241 townhouse units. The project includes the construction of 9,822 linear feet of 8-inch PVC gravity sewers, a 0.457 MGD capacity pump station and 496 linear feet of 4-inch diameter force main that will connect to the existing sanitary sewer at Plymouth Court. The proposed development will generate an average total flow of 114,500 gallons per day (gpd) as calculated below:

Affordable Housing

- 6 One-Bedroom Apartment Units (150 gpd/unit) – 900 gpd
- 19 Two-Bedroom Apartment Units (225 gpd/unit) – 4,275 gpd
- 6 Three-Bedroom Apartment Units (300 gpd/unit) – 1,800 gpd
- 28 One-Bedroom Senior Apartment Units (110 gpd/unit) – 3,080 gpd
- 20 Two-Bedroom Senior Townhouse Units (170 gpd/unit) – 3,400 gpd
- 6 Three-Bedroom Senior Townhouse Units (225 gpd/unit) – 1,350 gpd
- 40 Three-Bedroom Stacked Townhouse Units (300 gpd/unit) – 12,000 gpd

Market Rate Units

- 70 One-Bedroom Apartment Units (150 gpd/unit) – 10,500 gpd
- 105 Two-Bedroom Apartment Units (225 gpd/unit) – 23,625 gpd
- 113 Three-Bedroom Townhouse Units (300 gpd/unit) – 33,900 gpd
- 62 Four-Bedroom Townhouse Units (300 gpd/unit) – 18,600 gpd
- Clubhouse, Swimming Pool and Maintenance Building – 1,214 gpd

This application is in compliance with applicable wastewater management plans and documents

and there is currently sufficient treatment capacity for the proposed contributory flow.

Due to New Jersey Department of Environmental Protection's strict limits on chlorination byproducts, the flow generated from this application only includes domestic sewage and does not include the acceptance of any backwash and drain down discharges from proposed swimming pools.

The developer/applicant has signed an Agreement with the Authority whereby the developer/applicant agrees to pay the Connection Fee to the Authority prior to applying for the necessary construction/ plumbing permits. This application is hereby recommended for approval.

**RESOLUTION CONSENTING TO THE PROPOSED REVISION TO THE
UPPER RARITAN WATER QUALITY MANAGEMENT PLANS
FOR INTER-BASIN TRANSFER OF PORTIONS OF BLOCK 96 LOTS 19.07 AND
20.01 IN WARREN TOWNSHIP**

WHEREAS, The Somerset Raritan Valley Sewerage Authority has received a request from the Township of Warren to consent to a proposed revision to the current Upper Raritan Water Quality Management Plan (WQMP) for the inter-basin transfer of portions of Block 96 Lots 19.07 and 20.01; and

WHEREAS, The Township of Warren granted the subdivision of Block 96 Lots 18, 19.07 and 20.01 into six (6) new lots for a proposed residential development, and has also approved the aforementioned revision (resolution attached); and

WHEREAS, the proposed revision will transfer portions of Lots 19.07 and 20.01 from the Township of Warren Stage I/II Service Area (NJ0022489) to the Somerset Raritan Valley Sewerage Authority Service Area (NJ0067733); and

WHEREAS, two (2) single-family dwellings will be constructed on these lot portions; and

WHEREAS, the Authority staff has reviewed this application and recommends that consent be granted for the aforementioned proposed inter-basin transfer and revision to the current Upper Raritan Water Quality Management Plan.

NOW, THEREFORE, BE IT RESOLVED by The Somerset Raritan Valley Sewerage Authority Board of Commissioners that it hereby consents to the proposed inter-basin transfer and revision to the current Upper Raritan Water Quality Management Plan; and

BE IT FURTHER RESOLVED that this consent shall be submitted to the NJDEP in accordance with N.J.A.C. 7:15-3.4.

Re: Proposed Revision to the Upper Raritan Water Quality Management Plan
for Inter-Basin Transfer of Portions of Block 96 Lots 19.07 and 20.01
Warren Township

SRVSA has received a request from the Township of Warren to consent to an amendment to the current Wastewater Management Plan, which will modify the present sewer service area boundary for the Township of Warren Stage I/II and the Somerset Raritan Valley Sewerage Authority (Middlebrook) Sewer Service Areas.

The Township of Warren granted the subdivision of Block 96 Lots 18, 19.07 and 20.01 into six (6) single-family residential lots, and is requesting that portions of Lots 19.07 and 20.01 be transferred from the Township of Warren Stage I/II Service Area to the Somerset Raritan Valley Sewerage Authority Sewer Service Area. Two (2) single-family dwellings will be constructed on these lot portions.

I have reviewed this application and have no objections to this request. I therefore recommend that consent be granted for this revision to the Upper Raritan Water Quality Management Plans.

**TOWNSHIP OF WARREN
RESOLUTION NO. 2023-221**

**RESOLUTION TRANSFERRING A PORTION OF EXISTING LOTS 19.07 AND 20.01
IN BLOCK 96 FROM THE STAGE I/II SEWER SERVICE AREA TO THE
MIDDLEBROOK SEWER SERVICE AREA**

WHEREAS, in connection with the preliminary major subdivision approval granted to Old Church Road Associates, LLC of Block 96, Lots 18, 19.07 and 20.01 into six (6) new lots (the "Applicant"), the Applicant requires a portion of existing Lots 19.07 and 20.01 in Block 96 to be transferred from the Stage I/II Sewer Service Area to the Middlebrook Sewer Service Area; and

WHEREAS, by Interoffice Memorandum from the Sewer Department Director dated July 12, 2023 (copy attached), the Sewer Department Director recommends the transfer of existing Lots 19.07 and 20.01 in Block 96 from the Stage I/II Sewer Service Area to the Middlebrook Sewer Service Area, with the new boundary line for this portion of the Middlebrook Sewer Service Area being depicted in green on the map attached to the Interoffice Memorandum of the Sewer Director.

NOW, THEREFORE, BE IT RESOLVED by the Township Committee of the Township of Warren, County of Somerset, State of New Jersey, as follows:

1. That existing Lots 19.07 and 20.01 in Block are hereby transferred from the Stage I/II Sewer Service Area to the Middlebrook Sewer Service Area, with the new boundary line for this portion of the Middlebrook Sewer Service Area being depicted in green on the map attached to the Sewer Director's Interoffice Memorandum dated July 12, 2023.
2. That the Township Clerk shall forward a certified copy of this Resolution to (i) Ron Anastasio, Executive Director of the SRVSA, and (ii) the Sewer Department Director.
3. That this Resolution shall take effect immediately.

INTEROFFICE MEMORANDUM

TO: Mayor DiNardo & Township Committee Members
FROM: Christian M. Kastrud, PE, CME, Township Engineer & Sewer Department Director. *CKM*
COPY TO: Mark M. Krane, Township Administrator
Cathy Reese, Township Clerk
DATE: July 12, 2023
SUBJECT: Modification to Stage I/II and Middlebrook Sewer Service Areas

Brief Background:

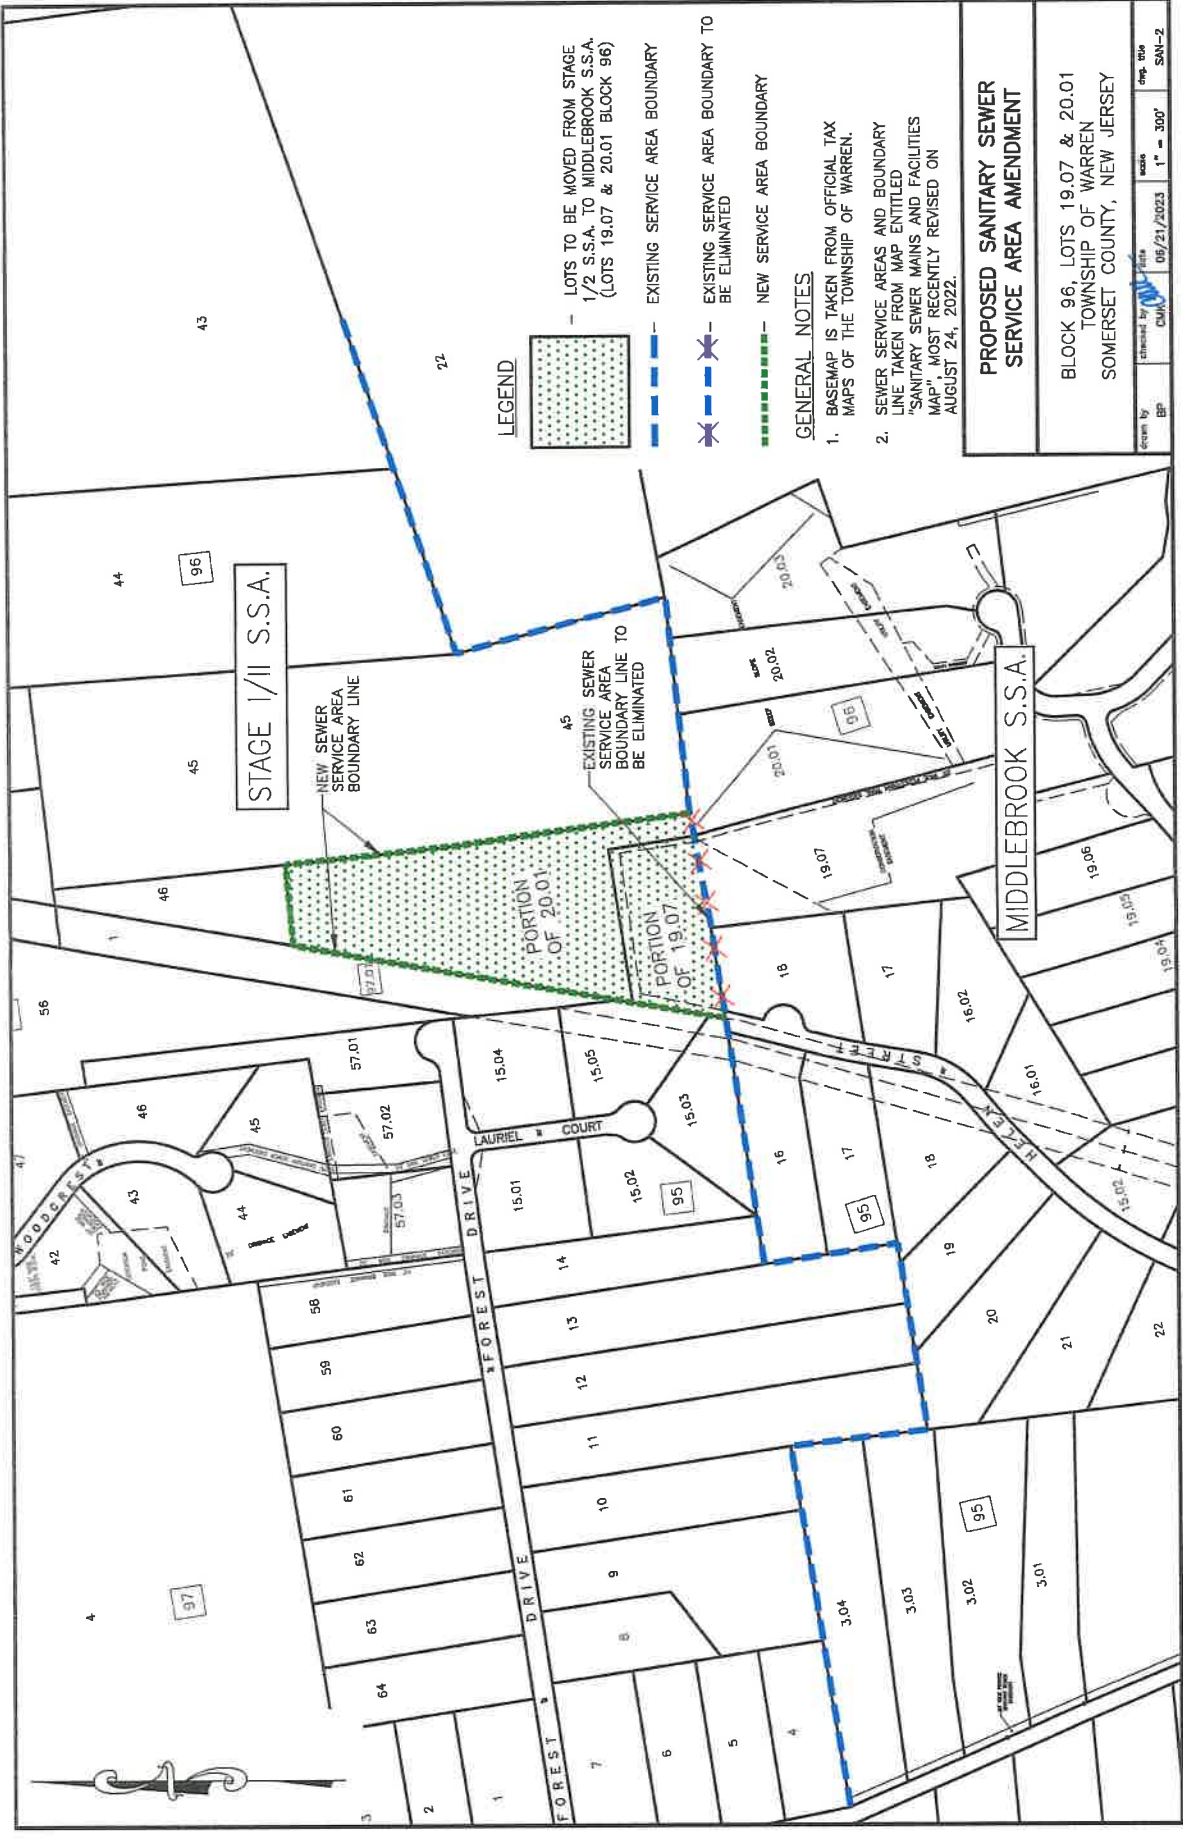

Applicant: Old Church Road Associates, LLC
Properties: Block 96, Lots 18, 19, 07 & 20, 01
Application: Preliminary Major Subdivision (Planning Board)
Approval(s): PB resolution number PB 22-02 adopted November 28, 2022

As part of the applicant's subdivision design, Eileen Street will be extended in a northerly direction in order to provide roadway frontage and access to two (2) new building lots, namely Proposed Lot 18.02 and Proposed Lot 18.03. (Note: The two new building lot numbers do not appear on the attached map. They will be created out of the area shown in green-dot-hatched area on the map.)

In order to continue the processing of the subdivision and obtaining future regulatory approvals, the applicant requires a portion of existing lots 19.07 & 20.01 (the green-dot-hatched area on the attached map) to be transferred from the Stage I/II Sewer Service Area to the Middlebrook Sewer Service Area.

Please consider this amendment to the Warren Township Water Quality Management Plan at your next township committee meeting. If you and the township committee members are in agreement with the change, a resolution concurring with the proposed amendment is respectfully requested.

Please contact me if you have any questions or require additional information.

Re: Proposed Revision to the Upper Raritan Water Quality Management Plan
for Inter-Basin Transfer of
Block 72 Lots 4, 5, 6, 7.01 and 7.02
Warren Township

SRVSA has received a request from the Township of Warren to consent to an amendment to the current Wastewater Management Plan, which will modify the present sewer service area boundary for the Township of Warren Stage IV and the Somerset Raritan Valley Sewerage Authority (Middlebrook) Sewer Service Area. This modification will transfer Block 72 Lot 4 (19 North Lane), Block 72 Lot 5 (17 North Lane), Block 72 Lot 6 (15 North Lane), Block 72 Lot 7.01 (11 North Lane) and Block 72 Lot 7.02 (8 Lexington Drive) from the Somerset Raritan Valley Sewerage Authority Service Area to the Township of Warren Stage IV Sewer Service Area. This area includes four (4) existing single-family dwellings and a vacant lot (Block 72 Lot 7.02) for residential development.

This transfer is proposed due to the recent availability of sewage capacity in the Stage IV Sewer Service Area.

I have reviewed this application and have no objections to this request. I therefore recommend that consent be granted for this revision to the Upper Raritan Water Quality Management Plans.

SU

**TOWNSHIP OF WARREN
RESOLUTION NO. 2023-220**

**RESOLUTION TRANSFERRING LOTS 4, 5, 6, 7.01 & 7.02 IN BLOCK 72
FROM THE MIDDLEBROOK SEWER SERVICE AREA TO THE STAGE IV
SEWER SERVICE AREA**

WHEREAS, by Interoffice Memorandum from the Sewer Department Director dated July 12, 2023 (copy attached), the Sewer Department Director recommends the transfer of Lots 4, 5, 6, 7.01 and 7.02 in Block 72 (commonly known as 19, North Lane, 15 North Lane, 11 North Lane and 8 Lexington Drive, respectively), from the Middlebrook Sewer Service Area to the Stage IV Sewer Service Area, with the new boundary line for this portion of the Stage IV Sewer Service Area being depicted in green on the map attached to the Interoffice Memorandum of the Sewer Director; and

WHEREAS, the Sewer Director believes such transfer to be appropriate since there are marginal soil conditions for individual subsurface sewage disposal systems in the Middlebrook Sewer Service Area and the recent availability of sewage capacity in the Stage IV Sewer Service Area.

NOW, THEREFORE, BE IT RESOLVED by the Township Committee of the Township of Warren, County of Somerset, State of New Jersey, as follows:

1. That Lots 4, 5, 6, 7.01 and 7.02 in Block 72 (commonly known as 19, North Lane, 15 North Lane, 11 North Lane and 8 Lexington Drive, respectively), are hereby transferred from the Middlebrook Sewer Service Area to the Stage IV Sewer Service Area, with the new boundary line for this portion of the Stage IV Sewer Service Area being depicted in green on the map attached to the Interoffice Memorandum of the Sewer Director
2. That the Township Clerk shall forward a certified copy of this Resolution to (i) Ron Anastasio, Executive Director of the SRVSA, and (ii) the Sewer Department Director.
3. That this Resolution shall take effect immediately.

I, Cathy Reese, Township Clerk of the Township of Warren, in the County of Somerset, New Jersey, do hereby certify the foregoing to be a true and correct copy of a resolution adopted at a meeting of the Township Committee held on August 17, 2023.

Cathy Reese, RMC
Township Clerk

INTEROFFICE MEMORANDUM

TO: Mayor DiNardo & Township Committee Members

FROM: Christian M. Kastrud, PE, CME, Township Engineer & Sewer Department Director *CMK*

COPY TO: Mark M. Krane, Township Administrator
Cathy Reese, Township Clerk

DATE: July 13, 2023

SUBJECT: Modification to Stage IV and Middlebrook Sewer Service Areas

Brief Background:

Properties: Block 72, Lots 4, 5, 6, 7.01 & 7.02 (a.k.a. 19 North Lane, 17 North Lane, 15 North Lane, 11 North Lane, 8 Lexington Drive)

Reasons for change: Marginal soil conditions for individual subsurface sewage disposal systems and recent available capacity in Stage IV Sewer Service Area.

Pursuant to recent availability of capacity in the Stage IV Sewer Service Area, the Warren Township Sewer Department is proposing to move the properties shown in the green-dot-hatched area on the attached map from the Middlebrook Sewer Service Area to the Stage IV Sewer Service Area. This would allow for five (5) properties to connect to the township's sewerage facilities. Lot 4 (19 North Lane) is already connected to the sewer so this change would formalize that connection. Lot 6 (15 North Lane) is currently redeveloping the property and, in coordination with the Warren Township Board of Health, would benefit from a connection to the sewer system. Lots 7.01 and 7.02 were created in a recent subdivision, and rather than constructing a new individual subsurface sewage disposal system, the new vacant Lot 7.02 (8 Lexington Drive) would connect to the sewer system and provide an easement for Lot 7.01 (11 North Lane) to connect in the future.

Please consider this amendment to the Warren Township Water Quality Management Plan at your next township committee meeting. If you and the township committee members are in agreement with the change, a resolution concurring with the proposed amendment is respectfully requested.

Please contact me if you have any questions or require additional information.

Res. No. 23-0925-11

RESOLUTION GRANTING CONSENT FOR 125 CRESTWOOD DRIVE (BLOCK 67 LOT 3.05) IN BRANCBURG TOWNSHIP TO BE ADDED TO THE SOMERSET RARITAN VALLEY SEWERAGE AUTHORITY SERVICE AREA

WHEREAS, the application has been made on behalf of the property owner seeking consent for an existing single-family dwelling located at located at 125 Crestwood Drive (Block 67 Lot 3.05) in Branchburg Township to connect to the existing sanitary sewer line and add the parcel to the Somerset Raritan Valley Sewerage Authority Sewer Service Area; and

WHEREAS, the Township of Branchburg and Somerset County has provided letters approving the parcel's connection to the existing sewer and being serviced by the Somerset Raritan Valley Sewerage Authority; and

WHEREAS, NJDEP has also provided a letter dated August 10, 2023, denoting that adding the parcel to the SRVSA service area does not require an amendment to the WQMP; and

WHEREAS, the Authority staff has reviewed the application and recommends that consent be granted for adding this property to the Somerset Raritan Valley Sewerage Authority Sewer Service Area.

NOW, THEREFORE, BE IT RESOLVED by The Somerset Raritan Valley Sewerage Authority Board of Commissioners that it hereby consents to the proposed addition of said parcel to the Somerset Raritan Valley Sewerage Authority Service Area; and

BE IT FURTHER RESOLVED that this consent shall be submitted to the NJDEP in accordance with N.J.A.C. 7:15-3.4.

Re: Proposed Revision to the Upper Raritan Water Quality Management Plans
125 Crestwood Drive
Block 67 Lot 3.05
Branchburg Township

An application has been made to NJDEP for the connection to the sanitary sewers in Branchburg Township of an existing single-family dwelling located at 125 Crestwood Drive (Block 67 Lot 3.05) in Branchburg Township. The application is for a mapping revision to the Upper Raritan Water Quality Management Plans (WQMPs) that will add the parcel to the Somerset Raritan Valley Sewerage Authority (SRVSA) Sewer Service Area (NJ0067733) which will result in this parcel being serviced by the SRVSA.

Attached are the Township of Branchburg and Somerset County letters approving the parcel's connection to the existing sewer. In addition, NJDEP's letter (attached) dated August 10, 2023, denoted that adding the parcel to the SRVSA service area does not require an amendment to the WQMP.

I have reviewed this application and recommend that consent be granted by adding this property to the Somerset Raritan Valley Sewerage Authority Sewer Service Area.

Should you have any questions, please do not hesitate to contact me.

Re: Wastewater Management Plan Amendment
Block 67, Lot 3.05
125 Crestwood Drive

Dear Mr. Ulep,

In response to Paul Christopher's email dated August 17, 2023, the Township confirms that the single-family residence located at Block 67, Lot 3.05 may connect to the existing sanitary sewer located in Crestwood Drive.

Please advise if you should require any further information.

Sincerely,

Doug Ball, P.E.
Township Engineer

[Report This Email](#) [FAQ](#) [Protection by INKY](#)

Hi Doug,

This morning I had a virtual meeting with Walter Lane from Somerset County and Sherwin Ulep from the SRVSA to discuss the sanitary sewer connection for the the existing dwelling.

Sherwin indicated that the SRVSA has no issue with this connection but will require a letter stating that the connection is approved by the Township. We will also need a letter from the County stating the same, which Walter has agreed to provide once he's seen the Township letter.

Please respond all to this email with an approval letter and feel free to reach out with any questions.

Thank You,

Paul Christopher, P.E.

In response to Branchburg Township Engineer Douglas Ball's letter dated August 21, 2023 and VanCleaf Engineering Paul Christopher's email dated August 17, 2023, Somerset County supports the connection of a single family residence located at Block 67, Lot 3.05 (125 Crestwood Drive) to the existing sanitary sewer system.

Somerset County supports this connection based on a letter dated August 10, 2023 from the New Jersey Department of Environmental Protection's (NJDEP) Gabriel Mahon. NJDEP found that the proposed connection does not constitute a "sewer extension" as defined at N.J.A.C. 7:14A-1.2. NJDEP also determined the proposed project is consistent with the Water Quality Management (WQM) Planning rules, therefore an amendment to the WQM Plan is not required. It is Somerset County's understanding that this lot will be added to the existing sewer service area once the connection to the sanitary sewer service system is made.

Please do not hesitate to contact me if you have any questions or require additional information.

Sincerely,

Walter C. Lane, PP/AICP
Director of Planning

Re: Crestwood Ave Sempre Property Group
Block 67/Lot 3.05, Branchburg Township, Somerset County
Proposed Amendment to the Upper Raritan Water Quality Management (WQM) Plan
Program Interest No. 435434, Activity No. AMD230004
Request for Withdrawal of Amendment Application

Dear Mr. Caruso:

The New Jersey Department of Environmental Protection (Department) has reviewed the information submitted with the above-referenced application. The application proposes the connection of an existing single-family dwelling located on Block 67, Lot 3.05 in Branchburg Township, Somerset County, to the Somerset Raritan Valley Sewage Authority (SRVSA) Wastewater Treatment Plant (WTP). In an email dated July 27, 2023, Paul Christopher of Van Cleef Engineering confirmed that the connection would not constitute a "sewer extension" as defined at N.J.A.C. 7:14A-1.2 and therefore a Department-issued Treatment Works Approval (TWA) would not be required, as per N.J.A.C. 7:14A-22.4. Based on this information, and review of the "Utility Plan for Block 67 Lot 3.05" dated July 31, 2023, the TWA Program concurred with this assessment on August 7, 2023. As such, the Department has determined that the proposed project is consistent with the WQM Planning rules, pursuant to N.J.A.C. 7:15-3.2(f)5, and therefore, an amendment to the WQM Plan is not required.

Please submit in writing a request to withdraw the amendment application. If we do not receive the written request within 14 days of the date of this letter, the project may be disapproved.

Please include the program interest and activity numbers provided above on all written correspondence to the Department regarding this amendment. If you have any questions about this amendment, please contact Maggie Matlosz at (609) 633-7021 or Maggie.Matlosz@dep.nj.gov.

Sincerely,

**SEWER EXTENSION RESOLUTION
TOWNSHIP OF WARREN
TWO (2) PROPOSED SINGLE-FAMILY DWELLINGS
HELEN STREET
BLOCK 96 LOTS 18.02 AND 18.03**

WHEREAS, an application has been received from Warren Township Sewerage Authority for construction of a sewer collection system and a sewer connection to the appropriate Warren Township Sewerage Authority line or lines to allow the discharge of sewage to be received and treated at and by the facilities of the Somerset Raritan Valley Sewerage Authority, and

WHEREAS, such sewer connection has been calculated to discharge a flow of 600 gpd for a proposed sanitary sewer extension to service two (2) proposed single-family dwellings located at the end of Helen Street and includes the construction of 396 linear feet of 8-inch PVC gravity sewer, as shown on plans entitled (five sheets):

Final Sanitary Sewer Plans, Preliminary Major Subdivision of Block 96 Lots 18, 19.07 and 20.01, Tax Map Sheets 116 and 117, Township of Warren, Somerset County, New Jersey, prepared by Page-Mueller Engineering Consultants, P.C., dated May 16, 2023; and

WHEREAS, due to New Jersey Department of Environmental Protection's strict limits on chlorination byproducts, the flow generated from this application only includes domestic sewage and does not include the acceptance of backwash and drain down discharges from any proposed swimming pools; and

WHEREAS, said application contingent upon the approval of the transfer of Lots 18.02 and 18.03 (portions of Lots 19.07 & 20.01) from the Township of Warren Stage I/II Service Area to the Somerset Raritan Valley Sewerage Authority Sewer Service Area; and

WHEREAS, said application has been reviewed for conformance with the applicable wastewater management plans and documents and available permitted design treatment capacity, only, and is recommended for approval by, Sherwin Ulep, P.E., the Authority Engineer; and

WHEREAS, the Somerset Raritan Valley Sewerage Authority sewer connection fee for this application shall be reviewed and calculated in accordance with current Authority connection fee policy prior to obtaining any building permits, and where each dwelling unit will be charged a minimum of one (1) EDU regardless of size;

BE IT RESOLVED BY THE SOMERSET RARITAN VALLEY SEWERAGE AUTHORITY that it hereby consents to the construction of the above stated collection system, such consent being in accordance with the provisions of R.S.40:14A-29; and

BE IT FURTHER RESOLVED that the Somerset Raritan Valley Sewerage Authority does hereby approve the application of Warren Township Sewerage Authority to connect to the Warren Township Sewerage Authority collection system and to deliver sewage to the facilities of the Somerset Raritan Valley Sewerage Authority, subject to further approval of the New Jersey Department of Environmental Protection; and

BE IT FURTHER RESOLVED this approval is not, nor shall it be construed to be, an allocation or guarantee of future capacity, and, further, that the connection fee or fees in effect at the time such connection is to be made shall be paid to the Authority in accordance with the Authority's regulations pertaining thereto and the terms of a Connection Fee Agreement entered into by and between the Applicant and the Authority on or before the date of adoption of this Resolution; and

BE IT FURTHER RESOLVED this consent and approval will terminate if the Applicant fails to complete construction of said collection facilities and to make connection thereof and commence delivery of sewage to the facilities of the Somerset Raritan Valley Sewerage Authority within two (2) years of the date hereof; and the Department of Environmental Protection is hereby notified that all time extension requests of this consent and approval must be approved by the Authority.

BE IT FURTHER RESOLVED that the Executive Director of the Authority is hereby directed to forward a copy of this Resolution to the Department of Environmental Protection and Warren Township Sewerage Authority and the Warren Township Sewerage Authority is hereby directed to immediately notify the Authority when it receives notice and a request for the herein above project to be connected to the municipal sewer system.

RE: Sanitary Sewer Extension Application
Two (2) Proposed Single-Family Dwellings
Township of Warren
Helen Street
Block 96 Lots 18.02 and 18.03

This application is for the approval of a proposed sanitary sewer extension to service two proposed single-family dwellings that will produce an average daily wastewater flow of 600 gallons per day. The project is located at the end of Helen Street and includes the construction of 396 linear feet of 8-inch PVC gravity sewer.

This approval is contingent upon the approval of the transfer of Lots 18.02 and 18.03 (portions of Lots 19.07 & 20.01) from the Township of Warren Stage I/II Service Area to the Somerset Raritan Valley Sewerage Authority Sewer Service Area.

There is currently sufficient treatment capacity for the proposed contributory flow.

The developer/applicant has signed an Agreement with the Authority whereby the developer/applicant agrees to pay the Connection Fee to the Authority prior to applying for the necessary construction/ plumbing permits. This application is hereby recommended for approval.

Res. No. 23-0925-13

**RESOLUTION AUTHORIZING CHANGE ORDER NO. 1
FOR THE LOCAL CONTROL PANEL UPGRADE - FURNISHING AND DELIVERY
OF REPLACEMENT GRIT COLLECTOR EQUIPMENT
CONTRACT NO. A-23-5**

WHEREAS, under Res. No. 23-0424-4, the Somerset Raritan Valley Sewerage Authority (the "Authority") awarded the Furnishing and Delivery of Replacement Grit Collector Equipment, Contract No. A-23-5 to WSG & Solutions, Inc. in accordance with the Local Public Contracts Law, N.J.S.A. 40A:11-1 et seq., in the amount of \$715,000.00; and

WHEREAS, the equipment's local control panels, as detailed on the Contract specification, do not meet the present environmental requirements inside the process area of the Headworks Building which leads to the need for the Authority to upgrade the four (4) specified NEMA 4X-rated local control panels to be NEMA 7-rated enclosures; and

WHEREAS, WSG & Solutions, Inc. has provided the Authority with a proposal in the amount of \$16,150.00 to upgrade all local control panel to a NEMA 7-rated enclosure and replace all switches as needed for a Class 1 Division 1 classified area; and

WHEREAS, the Authority staff have determined the need to make the contract changes as described in the attached memo, and where this change will increase the contract price by \$16,150.00 to bring the contract total price to \$731,150.00 and where there will not be any increase in the contract time; and

WHEREAS, the Chief Financial Officer of The Somerset Raritan Valley Sewerage Authority has certified in writing the availability of funds for the purposes set forth in this Resolution, to be funded out of the Authority's 2023 Capital Budget, Connection Capital Fund – Plantwide Mech. Rehabilitation Construction, specifically 02-650-3000.

NOW, THEREFORE BE IT RESOLVED by the Somerset Raritan Valley Sewerage Authority Board of Commissioners that it hereby accepts the recommendation of the Authority staff, and authorizes Change Order No. 1 as described above to WSG & Solutions, Inc., in the amount not to exceed \$16,150.00 to be funded out the Authority's Connection Capital Fund; and

BE IT FURTHER RESOLVED by the Authority's Board of Commissioners that the Executive Director is hereby directed, empowered, and authorized to enter into the necessary contracts.

**RE: **Furnishing and Delivery of Replacement Grit Collector Equipment
Contract No. A-23-5
Change Order No. 1
Local Control Panel Upgrade****

The Somerset Raritan Valley Sewerage Authority (Authority) awarded the Furnishing and Delivery of Replacement Grit Collector Equipment, Contract No. A-23-5 to WSG & Solutions, Inc. in the amount of \$715,000.00 under Res. No. 23-0424-4. To date, WSG & Solutions, Inc. has completed the shop drawing review phase of the project and has recently initiated the fabrication of the equipment.

During the shop drawing review phase, the Engineering Department (Engineering) noticed that the specified four (4) NEMA 4X-rated local control panels of the grit collectors and conveyors do not meet the present environmental requirements inside the process area of the Headworks Building. Engineering quickly reached out to WSG & Solutions, Inc. to upgrade the panels to NEMA 7-rated enclosures which is required for the existing Class 1 Division 1 classified area.

WSG & Solutions, Inc. has provided the Authority with a proposal (attached) to upgrade all local control panels in the amount of \$16,150.00. Engineering has reviewed the proposal and believes that the price provided is reasonable.

As such, I recommend approval of Change Order No. 1 in the amount of \$16,150.00 WSG & Solutions, Inc.

**SECTION 11251- HEAVY DUTY CHAIN AND BUCKET GRIT COLLECTOR WITH
SHAFTLESS SCREW CONVEYORS
UPGRADED CONTROLS**

As the original equipment manufacturer, WSG & Solutions, Inc. proposes to furnish and deliver, upgraded Local Control Stations as per Customer's request consisting of One (1) Lot of Controls for Two (2) Chain & Bucket Grit Collectors and two (2) Transfer Screws, for Rex® Chain and Bucket Grit Collectors which were originally furnished by Envirex under Contract # H117869, circa 1978 as further described below.

Upgraded Controls will consist of the following:

One (1) Lot of Local Control Stations for Two (2) Chain & Bucket Grit Collectors and two (2) Transfer Screws. Specification listed NEMA 4X, Customer requests NEMA 7, consisting of the following:

Local Control Stations (4 each), Cast Aluminum	-	NEMA 7
- Upgraded Operators and Indicators from NEMA 4X to NEMA 7	-	Included

Excluded Items:

Items specifically **not included** in this Proposal are as follows:

- Locating and mounting of any control panels, local control stations, ultrasonic sensor/transducers, and channel mounted float switches.
- All conduit, fittings, junction boxes and interconnecting wire and wiring between any control panels, local control stations, mechanical equipment mounted junction boxes (if any), ultrasonic sensor/transducers, and channel mounted float switches.

PRICE SUMMARY

Our price{s} include{s} only the specific items detailed in this proposal.

ITEM & DESCRIPTION

PRICE

Upgraded NEMA 7 Cast Aluminum Local Control Stations	\$16,150.00
--	-------------

The prices quoted do not include taxes of any kind. Freight is included in price. This proposal and these prices are valid for a period of thirty (30) days.

FREIGHT:

Price is FOB Shipping Point with least expensive freight allowed to the Jobsite. Our price does not include any costs for unloading, transporting on the site or storage.

PAYMENT AND PRICE TERMS:

The terms of payment are as follows:

30% due upon Approval of Drawings payable net 30 days from the date of the invoice.

70% balance due upon Shipment payable net 30 days from the date of invoice for the value of material as shipped (or as ready for shipment, if shipment is deferred by you).

These terms are completely independent from, and in no way contingent upon, when you receive payment, from the Owner and/or Prime Contractor. In the event any amount becomes past due, a service fee of 1-1/2% of the unpaid balance will be due each month until paid. WSG & Solutions, Inc. reserves the right to ship, invoice and collect for partial shipments. No retainers on milestone payments. Storage fees are not included in the price and Buyer shall pay all storage fees if Buyer is not ready to receive.

Prices are subject to change due to the uncertain and pending NAFTA changes and tariffs on steel and finished goods shipping into the USA. Our pricing does not include any such additional costs. If these added costs are imposed and impact the costs of the quoted equipment, then these costs will be added, and the final price will be changed accordingly.

CONDITIONS OF SALE:

WSG & Solutions, Inc. Standard Terms of Sale are attached and shall become part of any contract resulting from this proposal.

DRAWING AND SHIPMENT INFORMATION:

- * Approval Drawings 4 to 6 Weeks after final agreement
- * Shipment ARA and final agreement 18 to 22 Weeks

Our equipment is priced to ship in accordance with the above schedule. Installation schedules which require delivery beyond these dates may result in a price increase. Shipments delayed by the Purchaser beyond the schedule dates will be subject to an assessment at the rate of 1.5% per month of the value of the contract.

* The above scheduled weeks are subject to change based on global supply chain delays and the availability of engineering and fabrication resources upon final contract agreement.

FIELD SERVICES:

Field service will be provided as per the original WSG Contract # C10911X2R1 to perform a review of the equipment installation and training on the operation of the equipment.

Additional field services of a field service technician may be purchased at the per diem rate of \$ 1,400.00 per eight (8) hour day, Monday through Friday inclusive. Overtime and Saturday work is charged at time and one-half. Sunday will be charged double time; time worked on US Holidays will be charged triple time. Traveling, living and incidental expenses will be charged at cost.

GENERAL INFORMATION:

The price in this proposal includes one (1) hard copy and one (1) digital copy in PDF format of the Field Service Manual in English for this application. The manual includes installation, operation, and maintenance information. Additional paper copy (bound) manuals can be provided at a cost of \$150.00 each.

STANDARD TERMS OF SALE

1. **Applicable Terms.** These terms govern the purchase and sale of the equipment and related services, if any (collectively, "Equipment"), referred to in Seller's purchase order, quotation, proposal or acknowledgment, as the case may be ("Seller's Documentation"). Whether these terms are included in an offer or an acceptance by Seller, such offer or acceptance is conditioned on Buyer's assent to these terms. Seller rejects all additional or different terms in any of Buyer's forms or documents.
2. **Payment.** Buyer shall pay Seller the full purchase price as set forth in Seller's Documentation. Unless Seller's Documentation provides otherwise, freight, storage, insurance and all taxes, duties or other governmental charges relating to the Equipment shall be paid by Buyer. If Seller is required to pay any such charges, Buyer shall immediately reimburse Seller. All payments are due within 30 days after receipt of invoice. Buyer shall be charged the lower of 1 ½% interest per month or the maximum legal rate on all amounts not received by the due date and shall pay all of Seller's reasonable costs (including attorneys' fees) of collecting amounts due but unpaid. Seller reserves the right to ship, invoice and collect for partial shipments. All orders are subject to credit insurance approval which shall require the Owner/Municipality/Contractor to provide financial statements to our credit insurance company so that WSG & Solutions, Inc. can obtain the needed credit insurance approval prior to moving forward with the project. These terms are completely independent from, and in no way contingent upon, when you receive payment, from the Owner and/or prime contractor.
3. **Delivery.** Delivery of the Equipment shall be in material compliance with the schedule in Seller's Documentation. Unless Seller's Documentation provides otherwise, Delivery terms are F.O.B. Shipping Point.
4. **Ownership of Materials.** All devices, designs (including drawings, plans and specifications), estimates, prices, notes, electronic data and other documents or information prepared or disclosed by Seller, and all related intellectual property rights, shall remain Seller's property. Seller grants Buyer a non-exclusive, non-transferable license to use any such material solely for Buyer's use of the Equipment. Buyer shall not disclose any such material to third parties without Seller's prior written consent.
5. **Changes.** Seller shall not implement any changes in the scope of work described in Seller's Documentation unless Buyer and Seller agree in writing to the details of the change and any resulting price, schedule or other contractual modifications. This includes any changes necessitated by a change in applicable law occurring after the effective date of any contract including these terms.
6. **Warranty.** Subject to the following sentence, Seller warrants to Buyer that the Equipment shall materially conform to the description in Seller's Documentation and shall be free from defects in material and workmanship. The foregoing warranty shall not apply to any Equipment that is specified or otherwise demanded by Buyer and is not manufactured or selected by Seller, as to which (i) Seller hereby assigns to Buyer, to the extent assignable, any warranties made to Seller and (ii) Seller shall have no other liability to Buyer under warranty, tort or any other legal theory. If Buyer gives Seller prompt written notice of breach of this warranty within eighteen (18) months from shipment or one (1) year from acceptance, whichever occurs first (the "Warranty Period"), Seller shall, at its sole option and as Buyer's sole remedy, repair or replace the subject parts. If Seller determines that any claimed breach is not, in fact, covered by this warranty, Buyer shall pay Seller its then customary charges for any repair or replacement made by Seller. Seller's warranty is conditioned on Buyer's (a) operating and maintaining the Equipment in accordance with Seller's instructions, (b) not making any unauthorized repairs or alterations, and (c) not being in default of any payment obligation to Seller. Seller's warranty does not cover wear and tear of the components once put into operation, damage caused by chemical action or abrasive material, misuse or improper installation (unless installed by Seller). THE WARRANTIES SET FORTH IN THIS SECTION ARE SELLER'S SOLE AND EXCLUSIVE WARRANTIES AND ARE SUBJECT TO SECTION 12 BELOW. SELLER MAKES NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE.

7. Indemnity. Seller shall indemnify, defend and hold Buyer harmless from any claim, cause of action or liability incurred by Buyer as a result of third party claims for personal injury, death or damage to tangible property, to the extent caused by Seller's negligence. Seller shall have the sole authority to direct the defense of and settle any indemnified claim. Seller's indemnification is conditioned on Buyer (a) promptly, within the Warranty Period, notifying Seller of any claim, and (b) providing reasonable cooperation in the defense of any claim.

8. Force Majeure. Neither Seller nor Buyer shall have any liability for any breach (except for breach of payment obligations) caused by extreme weather or other act of God, strike or other labor shortage or disturbance, fire, accident, war or civil disturbance, pandemic, delay of carriers, failure of normal sources of supply, act of government or any other cause beyond such party's reasonable control.

9. Cancellation. If Buyer cancels or suspends its order for any reason other than Seller's breach, Buyer shall promptly pay Seller for work performed prior to cancellation or suspension and any other direct costs incurred by Seller as a result of such cancellation or suspension.

10. Assignment. Seller may assign, transfer or subcontract any Order or any right or any obligation hereunder without Buyer's prior written consent. Seller may assign its rights and obligations under these terms to its affiliates or in connection with the sale or transfer of the Seller's business and Seller may grant a security interest in the agreement and/or assign proceeds of the agreement without Buyer's consent.

11. Escalation Clause. Seller has no control over the metals markets and the fluctuations of base metals cost and surcharges imposed on shipments of steel. The prices in the proposal are therefore subject to adjustment reflecting changes in the CRU Steel Price Index Forecast published by CRU International at www.cruspifutures.com for the base material costs, and the Allegheny Ludlum surcharge calculator/surcharge history data published monthly and is available at

www.alleghenyludlum.com/ludlum/pages/SurchargeCalculator/SurchargeHistory.asp. Changes made by the Buyer to the quoted schedule will be subject to escalation as provided herein. If the index and surcharge data published at the date of actual material procurement exceeds the index and surcharge data values at the proposal validity date, Seller has the right to change the price for the material portion of the contract and it may be increased in accordance with the changes in the index and surcharge data values. Price changes will be the difference between the actual material purchase costs as indicated by the CRU steel price index and surcharge calculator data at the date of purchase and the material costs in effect as indicated by the CRU steel price index and surcharge calculator data as of the date of the proposal. It is understood and agreed that it shall be Seller's option as to whether or not to invoke escalation. All invoices for escalation will include supporting documentation as required.

12. LIMITATION OF LIABILITY. NOTWITHSTANDING ANYTHING ELSE TO THE CONTRARY, SELLER SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL, PUNITIVE OR OTHER INDIRECT DAMAGES, AND SELLER'S TOTAL LIABILITY ARISING AT ANY TIME FROM THE SALE OR USE OF THE EQUIPMENT SHALL NOT EXCEED THE PURCHASE PRICE PAID FOR THE EQUIPMENT. THESE LIMITATIONS APPLY WHETHER THE LIABILITY IS BASED ON CONTRACT, TORT, STRICT LIABILITY OR ANY OTHER THEORY.

13. Miscellaneous. If these terms are issued in connection with a government contract, they shall be deemed to include those federal acquisition regulations that are required by law to be included. These terms, together with any quotation, purchase order or acknowledgement issued or signed by the Seller, comprise the complete and exclusive statement of the agreement between the parties (the "Agreement") and supersede any terms contained in Buyer's documents, unless separately signed by Seller. No part of the Agreement may be changed or cancelled except by a written document signed by Seller and Buyer. No course of dealing or performance, usage of trade or failure to enforce any term shall be used to modify the Agreement. If any of these terms is unenforceable, such term shall be limited only to the extent necessary to make it enforceable, and all other terms shall remain in full force and effect. Buyer may not assign or permit any other transfer of the Agreement without Seller's prior written consent. The Agreement shall be governed by the laws of the Commonwealth of Pennsylvania without regard to its conflict of laws provisions.

**RESOLUTION ACCEPTING THE PROPOSAL FROM MOTT MACDONALD FOR
TASK NUMBER 5 FOR RESIDENT PROJECT REPRESENTATIVE
ENGINEERING SERVICES FOR THE MAIN INTERCEPTOR AND FORCEMAIN
REHABILITATION PROJECT**

WHEREAS, the Somerset Raritan Valley Sewerage Authority has determined that the Authority's original interceptor sewer, constructed in 1958, has exceeded its service life and is in need of rehabilitation, in order to maintain the protection of human health and the environment; and

WHEREAS the Authority has also recently inspected its 36-inch Storm Control Pumping Station forcemain, constructed in 1971 using Prestressed Concrete Cylinder Pipe (PCCP), and where the Authority has determined that approximately 3,000 lineal feet of this pipeline is compromised and is in need of replacement; and

WHEREAS, the Authority has issued a Request for Proposals (RFP) to five engineering firms for said project and has received four proposals on June 15th, 2023, with the lowest cost proposal with what the committee determined was adequate experience for Task 5 being received from Mott MacDonald in the total amount of \$525,964 (bid results are included in the attached memo); and

WHEREAS, upon review and discussion of the proposals received, the Planning Committee recommends that Task Number 5 of the aforementioned RFP involving all resident project representative engineering services be awarded to Mott MacDonald in the amount not to exceed \$525,964, as per their proposal, dated June 15, 2023, and where the Authority staff agrees with this recommendation; and

WHEREAS, upon review of the recommendation of the Planning Committee, the Finance Committee also recommends award of Task Numbers 5 of the aforementioned RFP to Mott MacDonald in the amount not to exceed \$525,964, to be funded out of the Authority's Construction Account; and

WHEREAS, the Chief Financial Officer of The Somerset Raritan Valley Sewerage Authority has certified in writing the availability of funds for the purposes set forth in this Resolution, and the cost is budgeted in the duly adopted 2023 Capital Improvement Plan – Construction Capital Fund of The Somerset Raritan Valley Sewerage Authority, specifically line item: Interceptor & Forcemain Rehabilitation - Engineering (03-225-2000).

NOW, THEREFORE, BE IT RESOLVED by The Somerset Raritan Valley Sewerage Authority Board of Commissioners that it hereby accepts the recommendation of both the Planning and Finance Committees, and accepts the proposal from Mott MacDonald, dated June 15, 2023, and awards Task Number 5 the aforementioned RFP to Mott MacDonald, in the amount not to exceed \$525,964 without further authorization from the Board, with funding being provided from the Authority's Connection/Capital Account; and

BE IT FURTHER RESOLVED that The Somerset Raritan Valley Sewerage Authority Board of Commissioners further authorizes directs and empowers the Executive Director to enter into and execute the necessary professional engineering services contract; and

BE IT FURTHER RESOLVED that in accordance with N.J.S.A. 40A:11-5(1)(a)(i) a notice of contract award shall be published in the official newspaper, a brief notice stating the nature, duration, service and amount of the contract, and that the Resolution and contract are on file and available for public inspection at the Authority and the clerk's office of the municipalities creating the Authority; and

BE IT FURTHER RESOLVED, that this Resolution shall be effective immediately.

The
Somerset Raritan Valley
Sewerage Authority

FROM: FINANCE COMMITTEE (ALBANO, Mathews, Impellizeri, Machala, Pratt, Scarantino, Carra)

TO: BOARD OF COMMISSIONERS

DATE: SEPTEMBER 9, 2023

RE: RECOMMENDATION OF TASK NO. 5 – RESIDENT PROJECT REPRESENTATIVE ENGINEERING SERVICES CONTRACT AWARD FOR THE PROPOSED MAIN INTERCEPTOR AND FORCEMAIN REHABILITATION PROJECT

The Planning Committee met on August 28th to discuss the bid submissions for the Task #5 construction engineering services related to the Main Interceptor and Forcemain Rehabilitation Project (MIFRP) and has recommended to the Finance Committee the award of the Task #5 services to Mott MacDonald. Task #5 is for the Resident Project Representative (RPR), which provides full-time construction observation and inspection of the Contractor's work. The RPR will be on-site at all times during construction and be based in a field office trailer provided under the construction contract. Bids were received on June 15th for all engineering services for the MIFRP and four bids were received. A contract for Task Numbers 1 through 4, 6 & 7 was awarded under Res. No. 23-0724-4 to CDM Smith in the amount of \$1,556,307. As is the Authority's practice, the Board prefers to award Task #5 for the RPR construction services to a different firm than the design engineering firm.

From June 15th bid submittals, the two lowest prices for Task 5 were received from Hazen and Mott MacDonald, which are:

Hazen: \$503,119
Mott MacDonald: \$525,964

Attached are the cost breakdowns from the four submitted proposals, as well as the resumes of the proposed RPRs from both Hazen and Mott MacDonald. While the proposal from Hazen is \$22,845 lower than that from Mott MacDonald, the Planning Committee and the Authority staff felt that the proposed field RPR from Hazen team lacked the necessary experience for a project of this magnitude. On the other hand, the Planning Committee and the Authority staff believed that the Mott MacDonald candidate appeared to have a suitable amount of experience, plus being a professional engineer is desired as well. The Finance Committee agrees with this conclusion. Based on these factors, it is the recommendation of the Finance Committee and the Authority staff to the Board of Commissioners to award the

Board of Commissioners
September 9, 2023
Page 2

contract to perform the Task #5 work on this to Mott MacDonald, in the amount not to exceed \$525,964 without further authorization.

Should the Commissioners have any questions, please do not hesitate to contact me.

A handwritten signature in blue ink, consisting of several overlapping loops and a long horizontal stroke at the bottom.

Mr. Montesano provides inspection services for system upgrades to large wastewater treatment facilities, as well as providing municipal inspection services on an emergency basis. He also has experience with design, permitting, and bidding services, as well as construction services, payment applications, shop drawing reviews, and performing analyses of potential project change order cost additions.

Selected projects**Boiler Building, Central Wastewater Treatment Plant, Middlesex County Utilities**

Authority, Sayreville, NJ: Inspector responsible for overseeing the day-to-day construction activities for the construction of a boiler building housing two boilers and all associated process equipment producing 15,525 lbs/hr of steam for process heating. Responsibilities also include ensuring contractor compliance with plans and specifications, preparing daily reports, and maintaining site photographs.

Thickener Tank Overflow Screening Facility, Middlesex County Utilities Authority,

Sayreville, NJ: Lead Inspector responsible for overseeing the day-to-day construction activities for the construction of a bar screen facility conveying 28 MGD of thickener tank overflow. The project included the construction of a pre-cast chamber and installation of a screening unit and conveyor/compactor unit to remove debris from the wastewater. Responsibilities also included ensuring contractor compliance with plans and specifications, providing as-builts of elevations and conduits, preparing daily reports, and maintaining site photographs.

Water Reuse Facility, Middlesex County Utilities Authority, Sayreville, NJ: Assistant Inspector responsible for overseeing the day-to-day construction activities for the construction of an effluent pumping facility to convey 6.5 MGD of treated effluent for use in a power generating facility closed loop cooling system. Project included a new below-grade reinforced concrete pumping room, with controls and building above, two 350-hp pumps with associated suction and discharge piping and valves, and a chemical feed system. Responsibilities also included ensuring contractor compliance with plans and specifications, preparation of as-builts of conduits, preparing daily reports, and maintaining site photographs.

Bergen Street Pump Station Rehabilitation, Carteret Borough, Middlesex County,

NJ: Responsible for providing final design documents, permitting and bidding services, and supporting the day-to-day construction activities for the rehabilitation of one of the Borough's pump stations, including replacement of mechanical, electrical, and instrumentation equipment, and the installation of a new bypass chamber. Design, permitting, and bidding phase responsibilities included coordination with disciplines for finalizing design documents, working through the NJDEP New Jersey Environmental Infrastructure Trust (NJEIT) funding application process, and review/analysis of contractor bid documents. Construction phase responsibilities include performing shop drawing reviews, preparing request for information (RFI) responses, review and development of payment applications, and other coordination with engineering disciplines, the contractor, and the owner.

Roosevelt Avenue Pump Station Rehabilitation, Carteret Borough, Middlesex

County, NJ: Responsible for providing final design documents, permitting and bidding services, and supporting the day-to-day construction activities for the rehabilitation of the Borough's main pump station, including replacement of mechanical, electrical, instrumentation, and HVAC equipment, and the installation of a new bypass chamber. Design, permitting, and bidding phase responsibilities included coordination with disciplines for finalizing design documents, working through the NJDEP New Jersey Environmental Infrastructure Trust (NJEIT) funding application process, Treatment Works Approval (TWA) permitting application process, development of addenda documents,

Mark Montesano, PE (cont.)

and review/analysis of contractor bid documents. Construction phase responsibilities include performing shop drawing reviews, preparing request for information (RFI) responses, review and development of payment applications, design of change order scope and analysis of change order costs, and other coordination with engineering disciplines, the contractor, and the owner.

Prospect Expressway Pumping Station Upgrade, New York City Department of Environmental Protection (NYCDEP), Brooklyn, NY: Responsible for supporting construction activities for the restoration of the stormwater pump station. Responsibilities include ensuring contractor compliance with plans and specifications with regards to mechanical installations, and review of payment applications for mechanical work items.

Flood Hazard Mitigation, Restoration, and Upgrade of the Edison Pump Station, Middlesex County Utilities Authority, Woodbridge, NJ: Responsible for supporting the day-to-day construction activities for the restoration of the pump station and construction of a new bypass pumping station and flood wall surrounding the pump station. Responsibilities include ensuring contractor compliance with plans and specifications, performing shop drawing reviews and analysis of change order costs, and developing payment applications.

Electrical Unit Substation Replacements and Rehabilitation Upgrades, Central Wastewater Treatment Plant, Middlesex County Utilities Authority, Sayreville, NJ: Inspector responsible for overseeing the day-to-day construction activities for the replacement of electrical unit substations, motor control centers, and channel air blowers, along with installation of fiber-optic equipment for an updated SCADA system. Responsibilities include ensuring contractor compliance with plans and specifications, preparing daily reports, maintaining site photographs, and developing payment applications.

Solar Photovoltaic System, Central Wastewater Treatment Plant, Edison Pump Station, Administration Building, and County Fire Academy, Middlesex County Utilities Authority, Sayreville, NJ: Inspector responsible for overseeing the day-to-day construction activities for the installation of a 4.2-MW solar power system. The project included extensive site gradation and the installation of 13,775 modules for the production of solar power. Responsibilities included ensuring contractor compliance with plans and specifications, preparing daily reports, and maintaining site photographs.

Cole Salemo

Assistant Engineer I

Mr. Salemo has experience providing construction phase services, including inspection, technical administration, environmental permitting compliance, and cost estimating for wastewater infrastructure projects predominantly in New Jersey.

Education

BS, Environmental Engineering,
University of Delaware, 2022

Certification/License

OSHA 10-hr Construction

Areas of Expertise

- Construction inspection services
- Construction cost estimating
- Environmental engineering

Experience

- 1 total year
- 1 year with Hazen

Decant Rehabilitation Project, Passaic Valley Sewerage Commission (PVSC), Newark, NJ

Assistant Engineer. Assisted in construction phase services: construction inspection, equipment testing, construction site supervision, coordination with the Contractor and Authority, and construction photos. The decant facility is located immediately downstream of the Zimpro wet-air oxidation process and separates processed solids from liquid supernatant. The project consists of the rehabilitation of six 1-mgd covered concrete decant tanks as well as the supporting ancillary systems and infrastructure for the facility.

H6/H7 CSO Long-Term Control Plan Phase 2, North Hudson Sewerage Authority, Hoboken, NJ

Assistant Engineer. Assisted with the pre-bid phase engineering services, which includes the pre-bid meeting, addendum preparation and issuance, and correspondence with the Authority and other participating engineering firms. The project involves the second phase of construction for a high-level storm sewer system in the H7 Drainage Basin, 30-inch diameter force main, emergency generator, stormwater pumps, pump controls and appurtenances.

Pleasure Bay Crossing and Main Pump Station Replacement, Two Rivers Water Reclamation Authority, Monmouth Beach, NJ

Assistant Engineer. The project includes design and construction services of a new 54-inch FRP interceptor that will be installed in a 10-foot maximum diameter tunnel, with a length of 3,250 feet and depth of approximately 85 feet below Pleasure Bay to avoid existing soft marine soils below the Bay. The project is now in the construction phase. Responsible for preparing environmental permitting and contractor submittal logs.

Plantwide SCADA System Improvements, PVSC, Newark, NJ

Assistant Engineer. Investigated numerous facility process locations aiding in the development of design. The project includes providing improvements to the SCADA system and its associated instrumentation and control panels.

2022 Wastewater Annual Inspection Report, Sussex County Municipal Utilities Authority, Hamburg, NJ

Assistant Engineer. Inspected three wastewater treatment facilities (Upper Wallkill Water Pollution Control Facility, Hampton Commons Wastewater Treatment Plant, and Paulinskill Basin Water Reclamation Facility) and several pumping stations to find possible areas of rehabilitation to improve efficiencies, equipment, and infrastructure. All findings were organized into annual reports for the Authority.

Oak Street Pumping Station Sanitary Bar Screen Improvements, SUEZ Water, Bayonne, NJ

Process Mechanical Lead/Engineering Support. Provided assistance in the process mechanical scope development through facility inspection and consultation with the Authority. The project includes the replacement of existing sanitary bar screens, HVAC and fire system, and the ancillary system at the pumping station.

RLCY P05/P06: Resiliency Design, New York City Department of Environmental Protection, NY

Engineering Support. Aided in the basis of design reports and technical administration during the preliminary design phase. The project includes the repair and restoration of major assets including electrical conduits and wires for eight DEP wastewater resource recovery facilities (WRRFs) in the Greater New York City area. Project work comprises of preliminary design, design phase services, construction procurement, design services during construction, and construction closeout.

Beit Shemesh Wastewater Treatment Plant Design, Israel Water Authority, Beit Shemesh, Israel

Assistant Engineer. Aided in vendor governance for fine drum screens for the general design of the wastewater treatment plant. The Shimshon Wastewater Treatment Facility is designed to treat domestic wastewater at an average daily flow rate of 30,000 cubic meters (m³) per day for discharge to the Tzora B Reservoir. Provided further assistance in design sketches of the drum screens and the layout of the fine screening facility.

RESOLUTION - PAYROLL

BE IT RESOLVED by The Somerset Raritan Valley Sewerage Authority that the Treasurer be and is hereby authorized to approve Checks No. 22643 through No. 22762 all numbers inclusive in the amount of \$325,694.23 and Checks No. 30295 through No. 30311 all numbers inclusive, in the amount of \$211,240.11, for a total of \$536,934.34, said checks having been reviewed and certified by the Executive Director for payment.
